

STAY SAFE!

Do not enter if you are having breathing problems, fever or cough

Try to **limit 6 people** in the store at one time

Sanitize hands or use gloves upon entering the store

If cough or sneeze – turn from customers and products and cough or sneeze into arm bend (inside of elbow)

Keep a **social distance** from others

Place products **on counter, then step back** to keep a distance from counter person –the people on the front line who care about your health, their health and the health of their families just like you.

Keep **conversation to a minimum** when at the counter,
For health purposes.
